1. Table of revision

Version	Date	Comment	Author
0.1	02.11.2020	Created Project assignment und Project organization	Leonie de Santis
0.2	03.11.2020	Work breakdown structure	Mouaz Tabboush
0.3	03.11.2020	Project context, Project Objectives Plan, WP- Description, Milestone plan, Gantt chart, Project risks	Leonie de Santis
0.4	13.05.2021	Update List of Operations	Leonie de Santis

2. Project assignment

Project assignment	
Project objective (Output): Development of an editor GUI, which supports the PLC programming languages FBD (Function Block Diagram) and SFC (Sequential Function Chart). The common logic blocks should be available as graphical library elements and should be able to be dragged into the editor window and connected with each other. It should be possible to save and load the PLC programs as PLCopen or AML.	Non-objectives / Non-contents: <ul style="list-style-type: none"> • The PLC programming languages LAD, IL and ST need not be supported • The verification of the function of an example program on a runtime system was taken from the requirements and is optional.
Project benefits (Outcome): With the PLCopen-Editor GUI graphical PLC programs can be created. The languages FBD and SFC as well as the common logic blocks are available for this purpose. The programs can be saved or loaded as PLCopen XML or AML files. The exported file can be imported and loaded in other development environments (e.g. AML editor).	
Project client: C. Holder; M. Rentschler	Project manager: Mouaz Tabboush
Team members: <ul style="list-style-type: none"> • Elian Yildirim • Franziska Kopp • Leonie de Santis 	Other defendants:
Main tasks: <ul style="list-style-type: none"> • Documentation • Analysis • Design • Coding • Testing 	Milestones: <ul style="list-style-type: none"> • Analysis- / Design-Phase • Coding-Phase • Testing-Phase • Project completion
Start of project: Introductory lecture and project awarding	Start date: 11.09.2020
End of project: Presentation of the result	End date: Mai 2021

3. Project Objectives Plan

Objective type	Project objectives
Sub-objectives:	<p>Design:</p> <ul style="list-style-type: none"> • Workflow • Editor GUI • Import/Export <p>Coding:</p> <ul style="list-style-type: none"> • Homepage • Editor window • Programming languages: FBD, SFC • FBs that are dragged into the editor window and connected • Import/Export <p>Testing:</p> <ul style="list-style-type: none"> • Error Detecting • GUI Testing • Export Testing • Side effects (Delete, Move, ...) • Components (Function Blocks, Connectors, Variables)

4. Project context

Initial situation
For the creation of PLC programs there is an editor of the open source project OpenPLC, which can be used as a reference.

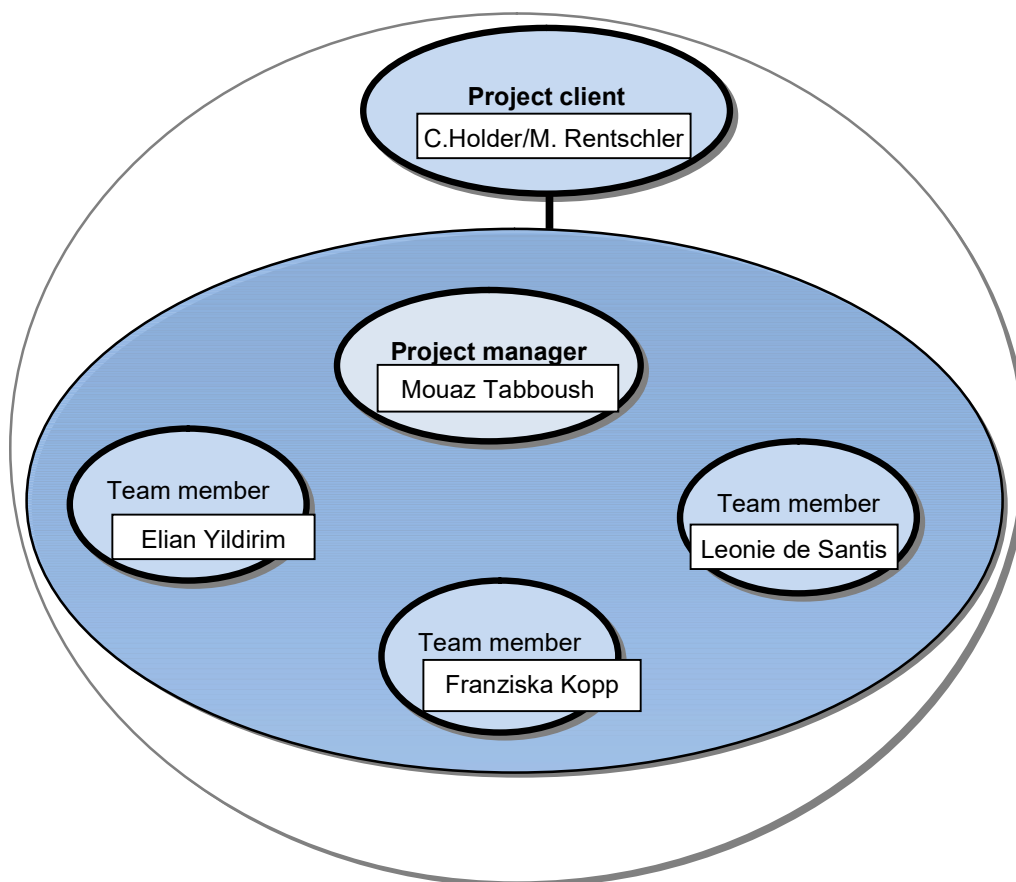

Temporal project context	
Pre-project phase	Post-project phase
<ul style="list-style-type: none"> Familiarization in PLC Familiarization with the OpenPLC editor 	<ul style="list-style-type: none"> Further PLC programming languages can be added Additional function modules can be added

Factual project context	
Context	Measures required
Other projects and exams in the theoretical phase	Fair distribution of tasks within the team and keeping to deadlines
Projects in the practical phase and the resulting time constraints	Longer periods of time for tasks to be performed

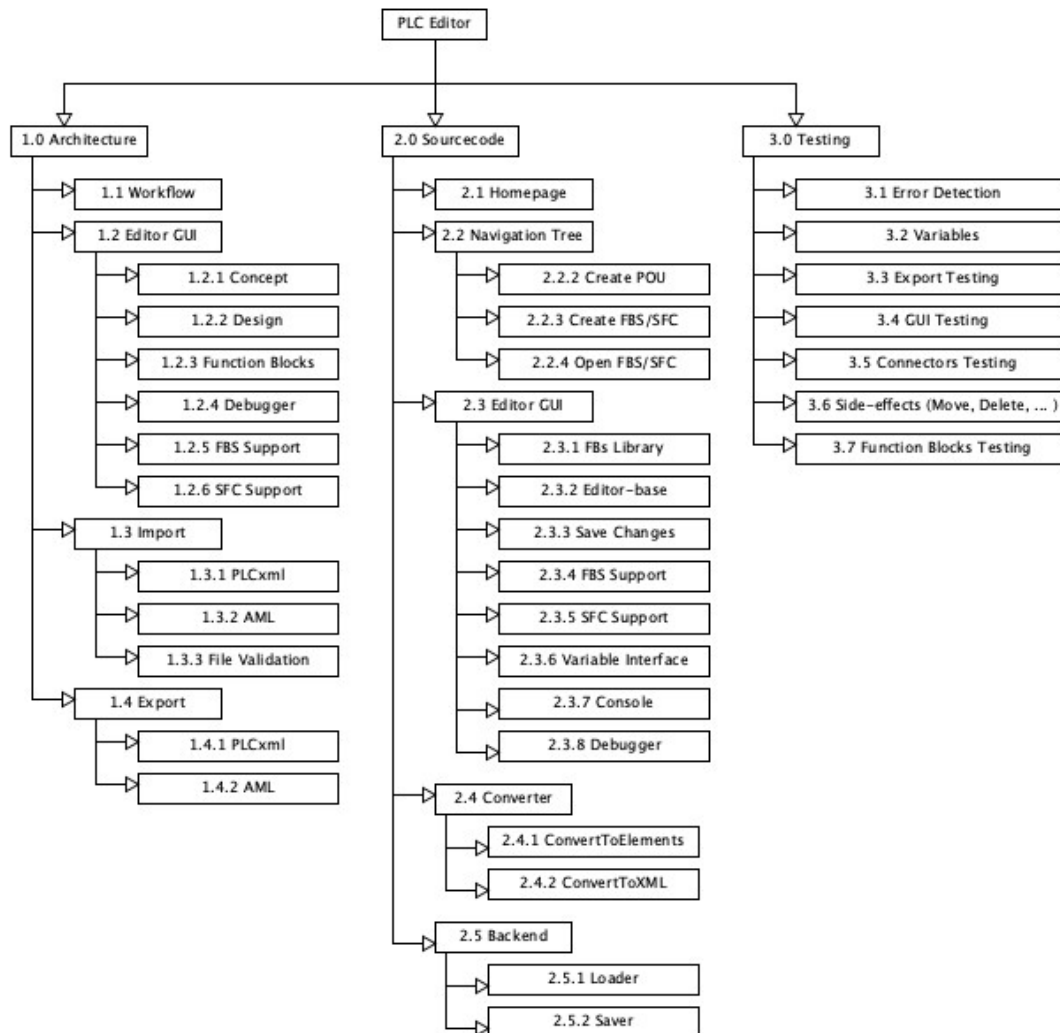

Social context			
Stakeholder group	Potentials / Chances	Conflicts / Risks	Measures
Client	Satisfied with the results	Changes in requirements during the project phase	Clear and regular communication between client and contractor
Contractor	Achieving the requirements	Difficulties within the team and time conflicts	Useful, regular meetings and keeping to deadlines
User	Using the PLCopen-Editor	difficulties in handling the program	Clear GUI structure and self-explanatory operation

5. Project organization

Project role	Role Description	Name
Project client	<ul style="list-style-type: none"> Client 	C. Holder M. Rentschler
Project manager	<ul style="list-style-type: none"> Project manager und Test manager 	Mouaz Tabboush
Team members	<ul style="list-style-type: none"> Developer Technical writer Product manager Test manager 	Elian Yildirim Franziska Kopp Leonie de Santis

6. Work Breakdown Structure (WBS)

7. WP-Description

Work package: 0.0 Analysis	
WP content / outcome:	<ul style="list-style-type: none"> • CRS • SRS • BC • PM • SAS
Ownership:	Mouaz Tabboush, Leonie de Santis
Collaboration:	Elia Yildirim, Franziska Kopp

Work package: 1.0 Architecture/Design	
WP content / outcome:	<ul style="list-style-type: none"> • Workflow • Editor GUI • Import, Export
Ownership:	Elia Yildirim, Mouaz Tabboush
Collaboration:	Franziska Kopp, Leonie de Santis

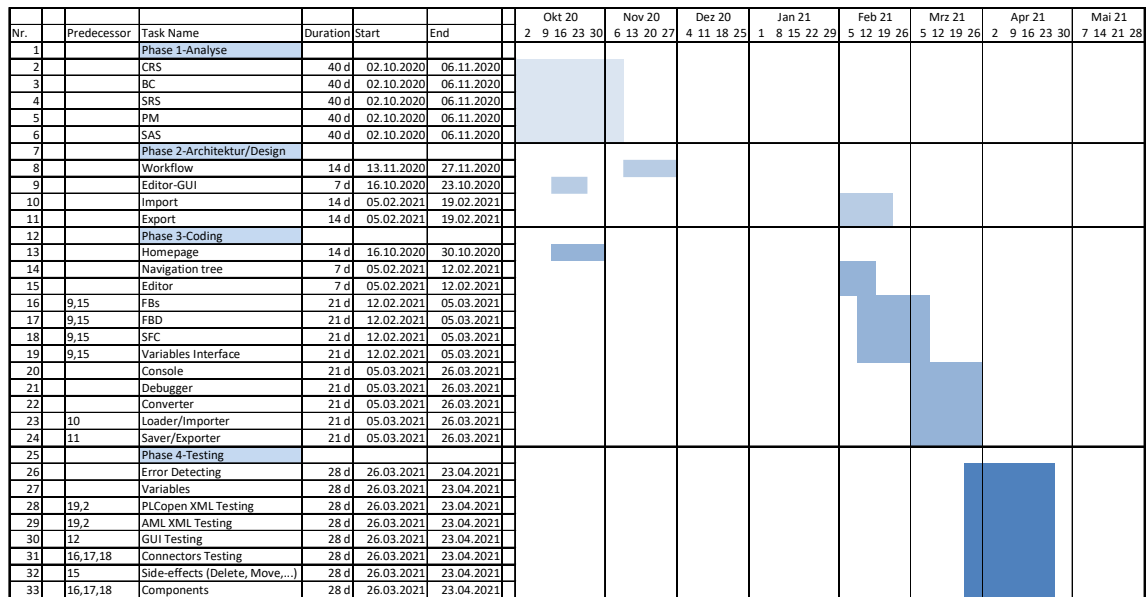

Work package: 2.0 Coding	
WP content / outcome:	<ul style="list-style-type: none"> • Homepage • Project overview • Editor • FBD, SFC, FB • Import. Export • Converter
Ownership:	Leonie de Santis, Franziska Kopp
Collaboration:	Mouaz Tabboush, Elia Yildirim

Work package: 3.0 Testing	
WP content / outcome:	<ul style="list-style-type: none"> • Error Detecting • Variables • Export: PLCopen XML / AML testing • GUI testing • Side-effects (Delete, Move, ...) • Function Blocks
Ownership:	Franziska Kopp, Elia Yildirim
Collaboration:	Leonie de Santis, Mouaz Tabboush

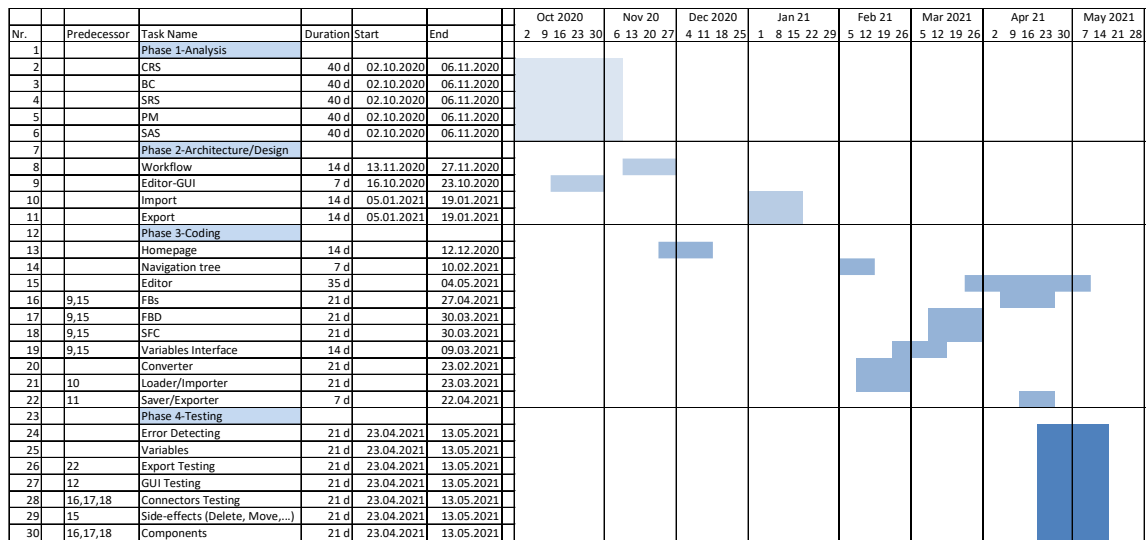

8. Milestone plan

PSP-Code	Milestone name	PLAN - Date	ACTUAL - Date
0.0	Analysis		
0.1	CRS	06.11.2020	28.10.2020
0.2	BC	06.11.2020	7.11.2020
0.3	SRS	06.11.2020	6.11.2020
0.4	PM	06.11.2020	3.11.2020
0.5	SAS	06.11.2020	9.11.2020
1.0	Architecture/Design		
1.1	Workflow	27.11.2020	9.11.2020
1.2	Editor GUI	23.10.2020	23.10.2020
1.3	Import	19.02.2021	19.01.2021
1.4	Export	19.02.2021	19.01.2021
2.0	Coding		
2.1	Homepage	22.12..2020	12.12.2020
2.2	Navigation tree	12.02.2021	10.02.2021
2.3	Editor	12.03.2021	04.05.2021
2.3.1	FBs	05.04.2021	27.04.2021
2.3.4	FBD	05.04.2021	30.03.2021
2.3.5	SFC	05.04.2021	30.03.2021
2.3.6	Variables Interface	05.03.2021	09.03.2021
2.4	Converter	26.03.2021	23.02.2021
2.5.1	Loader/Import	26.03.2021	23.02.2021
2.5.2	Saver/Export	26.03.2021	22.04.2021
3.0	Testing		
3.1	Error Detecting	05.05.2020	13.05.2021
3.2	Variables	05.05.2020	13.05.2021
3.3	Export testing	05.05.2020	13.05.2021
3.4	GUI-Testing	05.05.2020	13.05.2021
3.5	Connector-Testing	05.05.2020	13.05.2021
3.6	Side effects (Delete, Move, ...)	05.05.2020	13.05.2021
3.7	Function Blocks Testing	05.05.2020	13.05.2021

9. Gantt chart

Actual gantt chart of 14.05.2021:

10. Project risks

Risk Analysis			
Risk	Annotation	Probability of occurrence	Measure
Personnel risks	Member leaves project	Low	Project plan will have to be adapted, so that the working hours of the missing member distributes to the left members
Planning risk	Milestones are not achieved at the planned time	Medium	Project plan will have to be adapted
Risk in communication between the members	Tasks are done in a different way than consulted or tasks are not done in time.	Medium	Regular meetings
Risk in communication to client	The project is not implemented the way the client wanted it to be.	Medium	As soon as there are concerns about how the client wants something to be implemented, the product manager will ask the client.
Financial risk	The planning of the costs is wrong and the project is more expensive than expected.	Low	As soon as there are concerns about the costs, the members of the project will discuss about how to reduce the costs.

11. List of Operations

Operations and responsibility		
Person	Category	Task
Elian Yildirim Role: Developer	Documentation	<ul style="list-style-type: none"> • System Requirements Specification (SRS) • MOD 002: Navigator • MOD 003: Editor • Systemtestplan (STP)
	Implementation	<ul style="list-style-type: none"> • Design • Editor/Graph • Testing Navigator
Franziska Kopp Role: Technical Editor	Documentation	<ul style="list-style-type: none"> • Business Case • Meeting Minutes • MOD 001: Converter
	Implementation	<ul style="list-style-type: none"> • Import • PLC-Objects Models • Testing Converter
Leonie de Santis Role: Product manager	Documentation	<ul style="list-style-type: none"> • Customer Requirements Specification (CRS) • Project Manual (PM) / Gantt chart • MOD 001: Converter
	Implementation	<ul style="list-style-type: none"> • Library for function blocks • Import/Export • Variable Interface • PLC-Objects Models • Testing Converter
Mouaz Tabboush Role: Project manager	Documentation	<ul style="list-style-type: none"> • System Architecture Specification (SAS) • Work Breakdown Structure (WBS) • MOD 003: Editor
	Implementation	<ul style="list-style-type: none"> • Editor/Graph • Connections • Testing Editor
